

A blue-footed booby is the central focus of the image, standing on a light-colored, porous rock. The bird has a long, dark beak, a yellow eye, and a head with intricate brown and white patterns. Its body is primarily white, with dark wings and tail. Most notably, its feet are a vibrant, bright blue. The background is a soft-focus landscape of reddish-brown earth and rocks, typical of the Galapagos Islands.

GALAPAGOS ISLANDS, ECUADOR

# SOUTH AMERICA
